

BIOMOLDOL 7

Demoulding

Biodegradable concrete demoulding oil.

APPLICATIONS

Concrete Demoulding

- Biodegradable concrete demoulding oil, especially for roof tiles production.
- To be used pure by spraying on clean aluminium forms.

ADVANTAGES

- Easy roof tile demoulding.
- Clean moulds and good surface finishing, free of dust.
- Lower consumption compared with petroleum product.
- Based on vegetables oils, this product is biodegradable.

TYPICAL CHARACTERISTICS	METHODS	UNITS	BIOMOLDOL 7
Appearance	Visual	-	Clear liquid
Density	ISO 3675	Kg/m ³	851
Viscosity at 20°C	ISO 3104	mm ² /s	10
Viscosity at 40°C	ISO 3104	mm ² /s	5.9
Flash point	ISO 2592	°C	84
Pour point	ISO 3016	°C	- 36
Biodegradability	CEC.L33 .A94	%	95

Above characteristics are mean values given as an information.
